Automatic upper arm blood pressure monitor

General information

Monitor with automatic inflation and measurement to conveniently check someone's blood pressure at home. It is equipped with an indicator, showing instant test results, and saves up to 60 readings to show the course of a blood pressure over a longer period. The monitor has a measuring range between 0 mmHg and 300 mmHg and an accuracy of approx. 3 mmHg. It switches off automatically after 1 minute of inactivity.
